## From the Editor's Desk

*Dr. Shipra Ahuja Joshi*  
*Chief Editor*

India is on a new path. We have listed ourselves in the history well – architecturally, scientifically, humanistically, any almost every possible manner. The “India” of snake charmers is now coming closer to being the greatest economy of the world. The “Make in India” and “Vocal for Local” slogans are already household terms now. The younger ones are storing this in their subconscious setting their path on these lines; the older ones are relearning. Time has changed. We are shunning our taboos utilizing our potential to the best. Covid era has taught us much.

Ironically, we know how important it is to stay close to each other in this era of social media. We now realise that when ‘I’ moves ahead, ‘We’ together move ahead. So lets improve this ‘I’; ‘We’ shall soon be the superpower. Let’s bring new hopes this new year!

## Care Giver Program
